PROJECTS

IPL Data Analysis (Sports Case -Study)

- Analyzed IPL data (2008-2020) using Python (NumPy, Pandas).
- Extracted insights on player performance and team dynamics

Time Series Project (S&P Stock Market Case -Study)

- In this project, I analyzed historical stock market data for the S&P 500 index. The goal was to understand trends, patterns, and potential future movements in the stock market.

Geospatial Analysis Project (Zomato Case -Study)

- In this project, we explored Zomato's data to gain insights related to restaurants, cuisines, and user preferences.
